**Medical Advisors Committee, November 10, 2003**

**Call to Order**

**Introductions: MEMBERS**

Dr. Karen Link  
Lou Ann Miller  
Dr. Kim Mitchell

**GUESTS**

Tom Ezell  
Willard Hicks  
Sal Messina  
Lorie Messina

**Staff**

Dane Davis

1. **Protocol Revisions:** Dane discussed work group's effort, and thanked for their support of regional effort. Committee moves into review of drafts for revision.
  - a. **Introduction to Pediatric Protocols:** Willard encouraged appropriate restraint or immobilization to replace c-spine control. On second page insert child should be transported in appropriate device for size and weight, place at bottom of second page. Strike age 6 in "dealing" with toddlers. Management, strike weights in definition, move to bottom of weights and dosages. Use uncuffed ET tubes for less than 8 years of age. Change B S C. Dr. Mitchell strongly desires electrical protocol. Referred <60 CPR for a later date.
  - b. Look into regional variance to stop carrying activated charcoal.
  - c. Think about NG tubes in children.
2. **Meeting Adjourned:** Committee will continue on reviewing drafts in Special Meeting to be announced facilitating adherence to proposed implementation timeline 2004.
