

MASS CASUALTY / EVACUATION TRANSPORT UNIT

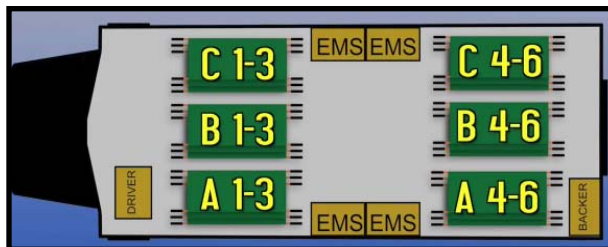

There are 10 Mass Casualty / Evacuation Transport Units (MCETU) in the Hampton Roads Region. The following Hampton Roads jurisdictions and organizations have accepted the MCETUs and agreed to make them available to support the Hampton Roads Metropolitan Medical Response System (HRMMRS):

- Chesapeake Fire Department
- Hampton Division Fire and Rescue
- Isle of Wight County Department of Emergency Services
- Newport News Fire Department
- Norfolk Fire Rescue
- Riverside Regional Medical Center
- Sentara Virginia Beach General Hospital
- Suffolk Department of Fire and Rescue
- Virginia Beach Fire Department
- York County Department of Fire and Life Safety

Patient Transfer Area

- ◇ Patients ready for transfer and loading should be assembled near the REAR of the MCETU
- ◇ Least “**CRITICAL**” loaded first-Front to Rear with “**HEAVIEST**” patients loaded on the bottom
- ◇ Stretcher numbers 1, 2, and 3 are loaded feet first, so the patients head is loaded to the center of the bus
- ◇ Stretcher numbers 4, 5, and 6 are loaded head first, so the patients head is located to the center of the bus
- ◇ Patient’s that may require invasive care i.e. Airway management, should be loaded in the middle positions for ease of care.
- ◇ In inclement weather, if shelter is available, stage patients under shelter until moved onto the bus
