Old Business	No old business		
New Business	<p>Dr. Amir Louka is the new Regional Medical Director.</p> <p>L. Miller discussed the most recent Trauma Triage data from OEMS. Raw data had an undertriage rate of 50%, but as the individual calls were examined, actual undertriage rate was about 4%.</p> <p>Committee is going to review the Trauma Field Triage Procedure and review the criteria to transport to a trauma center. Concern was mentioned about those who self-extricate and are walking around the scene and may not receive appropriate assessment or triage because they are “walking around.”</p> <p>JJ Bonavita of VA OEMS presented 2017-2018 Sepsis Data for parts of the PEMS region. Initial data suggests that education needs to be provided regarding Sepsis identification and treatment in the prehospital setting.</p> <p>No STEMI or Stroke data was reviewed during this meeting.</p>
