- 7 a.m. **Registration and Continental Breakfast**
- 8 a.m. **Welcome - Conference Moderator:**  
**Scott Reed, M.D., FACS,** *Trauma & Acute Care Surgeon, Chair, Hampton Roads Trauma Symposium, Riverside Regional Medical Center, Newport News, VA*
- 8:15 a.m. **Traumatic Brain Injury: Management in the Trauma Setting**  
**Amy Kolarova,** *Staff Psychiatrist, Acquired Brain Injury Rehabilitation, Shepherd Center, Atlanta, GA*
- OBJECTIVES:**
- Identify three common medical issues associated with brain injury observed in the critical care setting.
  - Identify at least one pharmacological intervention for each of the common issues reviewed.
  - List the two classes of medication that should be limited in the acquired brain injury population.
- 9:15 a.m. **Humpty Dumpty - A Case of Putting All the Pieces Back Together**  
**Nicole Artisst,** *Captain, Loudoun County Fire and Rescue, Leesburg, VA*
- OBJECTIVES:**
- Review a case study of a pediatric stabbing patient.
  - Overview of RSI considerations in a crashing patient, the “Lethal Triad” and the benefits of blood administration versus IV fluids for resuscitation.
- 9:45 a.m. **Blood in the Streets: An Update on Prehospital Transfusion**  
**John Morgan, M.D., FACEP,** *Operational Medical Director, Loudoun County Combined Fire and Rescue System*
- Dan B. Avstreich, M.D., FACEP, FAEMS**  
*EMS Physician - Associate Medical Director, Fairfax County Fire and Rescue Department; Attending Physician, Dept. of Emergency Medicine, Inova Fairfax Medical Center; Assistant Professor, Virginia Commonwealth University School of Medicine - Inova Campus; Associate Clinical Professor, The George Washington University School of Medicine*
- OBJECTIVES:**
- Discuss the history and evolution of the use of blood products in resuscitation.
- Understand balanced resuscitation and high-ratio component versus whole blood.
  - Explore strategies for both prepositioned and reach-back blood products for EMS.
- 10:15 a.m. **Break**
- 10:30 a.m. **High Energy Orthopedic Injuries**  
**Jacob Lantry, M.D.,** *Trauma Orthopedic Surgeon, Riverside Orthopedic, Sports Medicine & Physiatry Specialists, Riverside Regional Medical Center, Newport News, VA*
- OBJECTIVES:**
- Discuss initial care of selected orthopedic injuries.
  - Understand the difference between a distracting orthopedic injury and one that needs to be addressed immediately in the poly-trauma patient.
  - Discuss candidates for reimplantation.
- 11:30 a.m. **Stayin’ Alive Meets Another One Bites the Dust: Case Studies in Traumatic Arrest**  
**Beth Torres, Ph.D., RN, CCRN, TCRN,** *Trauma Nurse Clinician, VCU Medical Center Trauma Program, Richmond, VA*
- OBJECTIVES:**
- Identify potential injuries based on mechanism of injury.
  - Assess the patient’s condition rapidly and accurately using the primary survey.
  - State the appropriate interventions following the ABCs of resuscitation after traumatic arrest.
- 12:30 p.m. **Lunch**
- 1:30 p.m. **Liberal versus Restrictive Transfusion Strategies in the Trauma Patient**  
**Michael Martyak, M.D.,** *Trauma & Critical Care Surgeon, Eastern Virginia Medical School, Norfolk, VA*
- OBJECTIVES:**
- Discuss acute resuscitation of hemorrhagic shock in trauma patients.
  - Discuss the role of blood products in acute resuscitation.
  - Discuss the role of transfusion outside of the acute resuscitation phase.

2:30 p.m. **Virginia Beach Municipal Center Shooting Incident**  
**Joseph L. Hundley, MA, NRP, Deputy Chief,**  
*Virginia Beach EMS, Virginia Beach, VA*

**OBJECTIVES:**

- Review the pre-hospital response to an active shooter incident.
- Discuss the integrated approach to command and control.
- Review lessons learned from the incident.

3:30 p.m. **Break**

3:45 p.m. **Commanding the Chaos on The Interstate 64 Queens Creek Bridge**  
**Scott Reed, M.D., FACS**  
**Daniel D. Munn, M.D., FACS, Director, Trauma & Acute Care Surgery Services, Riverside Regional Medical Center, Newport News, VA**  
**Stephen P. Kopczynski, Fire Chief, Director, Coordinator, Emergency Management, York County Fire and Life Safety**

**OBJECTIVES:**

- Discuss incident command and triage at the scene.
- Discuss logistics and team approach during a MCI.
- Gain insight into what patients remember and feel was important during their experience.
