

29th Annual Hampton Roads

# Trauma Symposium

## Cutting Edge Innovation in Trauma

**August 28, 2020**

**Williamsburg DoubleTree by Hilton**

FOR MORE INFORMATION

**757-612-7218**

Emergency / Trauma Center, Lou Ann Miller

ONLINE REGISTRATION: [www.riversideonline.com/hrts](http://www.riversideonline.com/hrts)

Working Together To Serve Our Community

### Traumatic Brain Injury: Management in the Trauma Setting

**Amy Kolarova, Staff Physiatrist, Shepherd Center, Atlanta**

Three common issues associated with brain injury, pharmacological intervention, and limiting medication in acquired brain injuries.

### Humpty Dumpty - A Case of Putting All the Pieces Back Together

**Nicole Artisst, Captain, Loudoun County Fire and Rescue**

Pediatric stabbing patient case study, RSI considerations in a crashing patient, the "Lethal Triad", and blood administration versus IV fluids for resuscitation.

### Blood in the Streets: An Update on Prehospital Transfusion

**John Morgan, M.D., FACEP, Loudoun County Combined Fire and Rescue System**

**Dan B. Avstreich, M.D., FACEP, FAEMS, Fairfax County**  
Blood products in resuscitation, balanced resuscitation and high-ratio component versus whole blood, and prepositioned and reach-back blood products for EMS.

### High Energy Orthopedic Injuries

**Jacob Lantry, M.D., RRM, Newport News**

Care for orthopedic injuries, differences of distracting orthopedic injury and one that needs immediate attention in the poly-trauma patient, and reimplantation candidates.

### Stayin' Alive Meets Another One Bites the Dust: Case Studies in Traumatic Arrest

**Beth Torres, Ph.D., RN, CCRN, TCRN, Trauma Nurse Clinician, VCU, Richmond**

Identify and assess patient's injury using primary survey and following the ABCs of resuscitation.

### Liberal versus Restrictive Transfusion Strategies in the Trauma Patient

**Michael Martyak, M.D., EVMS, Norfolk**

Discuss acute resuscitation of hemorrhagic shock, role of blood products and transfusion.

### Virginia Beach Municipal Center Shooting Incident

**Joseph L. Hundley, MA, NRP, Virginia Beach EMS**

Pre-hospital response, integrated approach to command and control, and lessons learned from the incident.

### Commanding the Chaos on The Interstate 64 Queens Creek Bridge

**Scott Reed, M.D., FACS, RRM, Newport News**

**Daniel D. Munn, M.D., FACS, RRM, Newport News**

**Stephen P. Kopczynski, Fire Chief, Director, Coordinator Emergency Management, York County Fire and Life Safety**

Incident command and triage at scene, logistics and team approach of MCI, insight into patients experience.
