

Free EMS Continuing Education for Virginia EMS Providers

Available in partnership with VectorSolutions

The Virginia Office of EMS is pleased to announce that Virginia EMS providers now have free exclusive access to VectorSolutions Training, featuring robust courses delivered through an award-winning training management system.

We have invested significant money and resources into developing this partnership which will allow Virginia EMS providers to choose from 100 different continuing education courses in Vector's catalog in order to meet their requirements for recertification of their Virginia and National Registry certifications.

Unlock the power of this partnership today by logging into your account online at <http://app.targetolutions.com/vacee> and save valuable time and money when recertifying your EMS certifications.

Engaging Online Training from VectorSolutions

The VectorSolutions learning management system provides online training with proven results. These courses are available for free to all Virginia EMS providers and students. The online catalog of courses includes:

- Airway, Oxygenation and Ventilation
- Medical
- Trauma
- Cardiovascular
- Operations
